

Do you support the current fundraising (profit) target of approximately \$26,500 for 2019 (\$21,000 for projects and \$5,300 for running costs) to achieve the program of goods and services?

61 responses

Do you believe the P&C should seek the support of local businesses to help in the following fundraising activities:

Donation of goods (e.g. food for events) and services for use

61 responses

Donation of goods and services for prizes

60 responses

Do you support the P&C acknowledging this support:

On its Facebook page?

61 responses

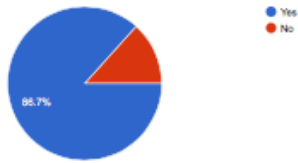

On its Website?

61 responses

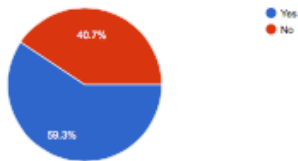

On signage at the event?

60 responses

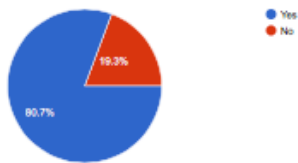

In the school newsletter with corporate logos?

59 responses

In the school newsletter but without corporate logos?

57 responses

Do you support the P&C promoting special offers from local supporting businesses? e.g. discounts at cafes or shopper reward programs (note the P&C cannot pass on information about its members or endorse products or services).

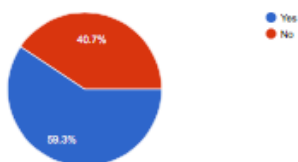

60 responses

Do you want the P&C / school to continue participating in:

Commonwealth Bank Dollarmites

59 responses

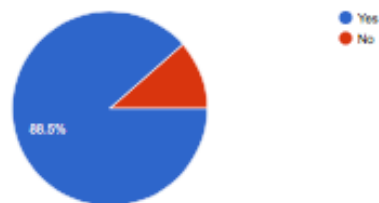

Covering the costs of our environmental Ed teacher, supporting in school education programs such as bringing sports/dance/art etc to the school for after school lessons and any classroom or building improvements deemed necessary by the school community that are not funded by the school. I want to see the school less driven by money and focus more on community, belonging and empathy. We have lost that.

Air conditioning for classrooms  
Anti-bullying workshops/programs  
Continue with the environmental program and other programs already supported  
I think funds are spent reasonably  
Art teacher  
Projects focussed on the children, not too long term, we never see the results

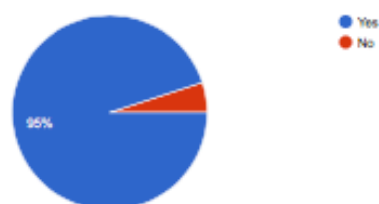

#### Shopper Docket Collection (Woolworths & Coles)

Would you support parents making a financial donation to the P&C if they are unable to volunteer to staff the events?

60 responses

Would you like to volunteer to help run an event to raise money for P&C projects?

60 responses

What would you like to see the P&C raising funds for? All ideas welcomed, from small projects to really big ones...

I love gardening, keep that up! Perhaps a kitchen to go with it? AC for all classrooms also essential but ED QLD should pay for this.

Air con, community service - ie: more engagement with or sponsorship of a local charity/community group

Air conditioning for the classrooms - all classrooms air conditioned given that we have solar.

Extracurricular sporting opportunities before and after school.

more air conditioning

Learning tools that will enhance learning outcomes both in and out of the classroom.

current projects are adequate

Reading, spelling, and math support; writing group after school or at lunch for children to practice creative writing; coding courses for students

More computers or iPads in classrooms

Air con for classrooms. Very challenging for Teachers and Kids to work and learn in our hot climate in summer. A real priority.

Also continuation for environment programme with Mr B - a wonderful resource - Mr B that is!

Equipping classes with Air Conditioning System. If you turn admin's office air con off for just an hour at noon everyday, you would thoroughly understand how poor little kids attend at classes.

Sporting programs. Next budget is disproportionately in favour of music. Buranda SS strongly supports the current extra-curricular offerings because they are so limited. I recommend a multi-sport program or girls soccer skills. The 2nd recommendation is made because the boys dominate the soccer space at lunch time and if the girls were given the skills they may have the confidence to participate. I can help to facilitate my recommendations.

Tuck shop should be run on daily basis.

I strongly recommend tuck shop should be every day.

1) Permanent in-school language teachers provided free from Prep onward so any family can choose to opt in; 2) Fund Education QLD cultural liaison staff to regularly visit Buranda and assist teachers to deliver indigenous content; 3) Natural landscaping that includes large shade trees for the children to play under as well as rest under plus a range of textures like big stacked boulders and logs for climbing & playing on and around.

Airconditioning; shade trees around the grounds

Anything that promotes students' school experience.

some special curved (horse shoe shaped) tables for reading sessions with teacher in class

Environmental program, music and sports equipment, art materials (that are used by the school, during schooltime—not by private providers or out of schooltime activities).

More things for the children to play on at lunch time.

Aircon in class rooms

Music instruments, environmental projects, garden

All classes air con, sport and music equipment, environmental program, revamping under A block into a shady, dynamic play space, large purpose build shady sandpit for lunchtime play for P-3s,

I'd love to see new sandpits on the oval and in the prep area, with hand operated water pumps and big boulders. A nature play playground...an art project that involved students... how about near the Gladys st entrance. Student made sculptures in the garden? More trees to play in ...

I can't think of ideas at the moment but am going to ask parents from other schools to collect ideas

Language classes starting earlier or funding towards external programs (same with music)

Air-con (though I think the Dept of Ed should fund)

Specialist Art Teacher - to incorporate curriculum ideas

Also, if you set the air con on 24 centigrade (not 16 like the school office) the cost of electricity won't be that high.

In addition, by signing a petition by all parents at the coming dancing event you might be able to get a monthly discount from the government for the bills like too many other schools in Qld.

It would be an appreciable effort from school management to try to provide a better educational space for the young kids.

Suitable temperature and controlled air damp at the classrooms is one of the first and most important children's right.

The principal should never give up trying hard to get the equal rights and facilities for his school comparing other state school through out Qld.

Idea 1 - Container return at events - FYI You can borrow a trailer from TOMRA recycling for events. So could be used for major events (eg fete or movie night)

Idea 2 - An obstacle or colour run - I would organise but not with my current work situation and also risk adverse school management.

Idea 3 - Touch tournament. Lead up to buddie cup or All Schools with local

Idea 3 - Touch tournament. Lead up to budge cup or All Schools with local schools paying to enter teams.

Jumble sale markets

Crowd funding for specific goals

Yatala Pie Drive in Winter time! Yummo!

Doing a 5c coin art work, to raise money for a particular project. All students bring in their spare 5c coins, and add them to a dynamic design on the concrete, which is counted and photographed. Lots of measuring, maths, money, prediction concepts.

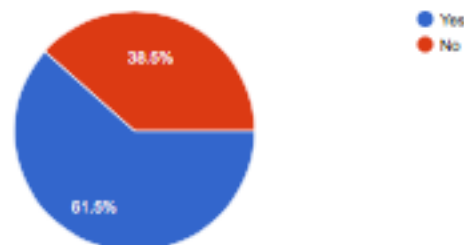

Pie drive in Winter

Chocolate bars..?

Colour run, School sleepover, Craft Day, Spelling Bee

Would you volunteer to organise this activity?

Is there any other feedback that you wish to give to the P&C on this matter?

25 responses

P&C fundraising provides some much needed 'things' for the school, but also income and financial security to some individuals who provide services to the school (eg tuck shop, garden). Being able to fund these positions profoundly improves the schooling experience for all Buranda kids.

thanks for doing such a great job :-)

ensure children eats healthy, finish their meals before play

I would like to see parents be involved, but feel this needs to be something that is fostered through relationship building and community spirit - a much harder ask these days given everyone is working full time and so busy. Things like swim club, one afternoon or social art or sports projects. I'm an idealist :-)

You all do a magnificent job, I feel our school community is lucky to have such dedicated parents, alongside fabulous school staff, who work hard to make our children's school experience positive.

I support a minimisation of corporate logos and presence in the school.

I prefer the fundraising where people get something (mango drive, movie night) rather than sponsoring (swimathon).

You're doing a great job keep it up

P&C doing a great job. Keep up the good work. Your efforts are very much appreciated by our family.

In regards to signage at an event, I think small/discreet signage would be okay (more of an acknowledgement than an advertisement)...

Let's make a donation to cover the fundraising aspect for the year, and then plan and enjoy community building activities, such as gardening mornings, working bees etc. P & C fundraising is about community, not empire building.

Your hand work and dedication is always appreciated.

No monetary corporate sponsorship at school. Materials fundraised for should be used by schoolchildren during school hours only, not by extra curricular activities for the few outside of school hours.

Thank you P&C for doing a great job!

You're doing a great job :)

No.

Having worked in corporate sponsorship it's realistic to expect local businesses to want recognition for their support through signage and/or promotion and I certainly don't have any concerns with that if the ultimate benefit goes towards the school. Same goes with Coles and Woollies (blatant marketing obviously but if the school is benefiting then again no issues!). Keep up the great work!

I think that it's important to include the local businesses in fundraising, as it builds social and community connections. Also, let's get funds from whomever will give it (even big business) given that the Dept Education isn't funding air-con or specialist programs.

I fully support the fundraising activities as long as there are discrete community activities as well with not so much of an emphasis on fundraising - but community cohesion. I realise the logistics of this with a small school are tricky, but the importance of the community just for community's sake is important too.
